

CP-19T FRAME HEATER

FEATURES

Ceramic heating

SPECIFICATIONS

Power supply..... AC110/220V,60/50Hz
 Power of heating coil.....500W
 Power of motor.....15W
 Wind speed.....1.8m/s
 Available temperature : 160°C(from 80°C-160°C need about 3mins)
 Weight.....1.6kgs
 Dimension.....230x230x200mm

CP-19C FRAME HEATER

Temperature adjustable

FEATURES

Heating coil

SPECIFICATIONS

Power supply.....AC110/220V,60/50Hz
 Power of heating coil.....500W
 Power of motor.....15W
 Wind speed.....1.8m/s
 Available temperature.....80°C~130°C
 Weight.....1kg
 Dimension.....210x160x270mm

CP-19F FRAME HEATER

Temperature adjustable

SPECIFICATIONS

Voltage.....220V/110V ,50Hz/60Hz
 Power.....500W
 Adjustable temperature.....80~160°C
 Working noise.....≤40db
 Wind speed.....1.8m/s
 Protection level.....II grade electric apparatus

CP-19A FRAME HEATER

Temperature adjustable

SPECIFICATIONS

Voltage.....220V/110V ,50Hz/60Hz
 Power.....600W
 Heating temperature(Max).....140°C
 Working noise.....≤40db
 Power of heating coil.....580W
 Power of fan.....6W
 Wind speed.....1.8m/s
 Protection level.....II grade electric apparatus

CP-19B FRAME HEATER

SPECIFICATIONS

Voltage.....220V/110V ,50Hz/60Hz
 Power.....600W
 Heating temperature(Max).....140°C
 Working noise.....≤40db
 Power of heating coil.....580W
 Power of fan.....6W
 Wind speed.....1.8m/s
 Protection level.....II grade electric apparatus

YK-101 FRAME HEATER

TECHNIQUE REQUIREMENTS

Rate voltage.....110V,60Hz / 220V, 50Hz
 Rated power.....500W
 Heating temperature(Max.).....110°C
 Noise.....≤70dB(A)
 Protection level.....II grade electric appliances

TECHNIQUE PARAMETERS

Power of warming wires.....480W
 Power for electric motor.....6W
 Wind speed.....2.0m/S
 Warming temperature.....Temp.1: 80°C
 Temp.2: 100°C
