- Low shipment costs
- Space-saving (1.08 m²)
- Including chair SC-1000
- Magnetic table lock
- Timeless and modern design

 **TOMEY**
TECHNOLOGY AND VISION

THE TOMEY REFRACTION UNIT TRU-800

QUALITY IN DETAIL

Perfect if you need a tiny and clever solution for your refraction environment. Due to its much smaller size it even fits into very small rooms. It's very easy to attach all essential instruments such as a phoropter and a chart projector to the **TRU-800**. If you want to store hand-held units or trial lenses – the optional trial lens cabinet TC-1000 suits perfectly.

Rotatable control board panel

Phoropter arm PA-1000 and PA-2000 (optional)

Trial lens cabinet TC-1000 (optional)
